Yes, the Health Department conducted a study on the St. Louis Coldwater Creek area. Results were inconclusive so the community wants further studies. Denise Jordan_Izaguirre our ATSDR rep can provide more details.

Subject: Senator McCaskill inquiry re: funding for health studies

Hi Steve,

I'm not sure where to send this inquiry, so I wanted to check in with you first. Senator McCaskill's office is asking on behalf of community members near the Westlake landfill about federal funding for a health study on nuclear waste sites and their effects on the health of a community. I'm not sure what is already occurring at the site, but I thought I'd start with you, and I will also check in with my R7 counterpart. Thoughts?
